Equine Reproduction Veterinarian

WestVETS Equine Reproduction Centre – Marburg, Queensland, Australia

WestVETS Equine Reproduction Centre is seeking an enthusiastic veterinarian to join our dynamic and highly experienced reproduction team at our purpose-built facility in Marburg, Queensland for the 2026-2027 breeding season.

Located just outside Brisbane and Ipswich, our reproduction centre is one of Australia's largest equine breeding facilities, offering advanced reproductive services including:

- Artificial insemination
- Embryo transfer
- OPU/ICSI programs
- High-risk pregnancy management
- Comprehensive stallion services

The centre spans more than 65 acres with purpose-built paddocks and facilities for mares, foals and stallions.

You will be joining a supportive and collaborative team of six reproduction veterinarians and highly experienced support staff in a busy, fast-paced environment with a strong focus on high-quality patient care and professional development. We pride ourselves on maintaining a friendly workplace culture, low staff turnover and a genuine team-based approach.

The Position

This role would suit:

- A veterinarian with experience in equine reproduction and artificial breeding technologies
- Someone looking to further develop their skills in advanced equine reproduction
- A motivated veterinarian who enjoys working as part of a collaborative team
- Someone with excellent communication skills and a strong focus on client relationships and teamwork

Experience with equine reproductive work is preferred; however, mentoring and support are available for the right candidate with solid equine experience and enthusiasm to learn.

About the Role

The successful applicant will be involved in all aspects of equine reproduction including:

- Artificial insemination programs
- Embryo transfer

- OPU/ICSI case management
- Stallion collection and reproductive services
- Mare fertility and reproductive medicine

What to expect:

- A busy seasonal caseload with exposure to advanced reproductive techniques
- Weekend work as part of a structured 5-day roster
- Opportunity to integrate with the larger WestVETS equine and mixed practice team outside of the breeding season

Flexible employment options available:

- **Short-term** breeding season contract position **OR permanent long-term** position for the right applicant

What We Offer

- A genuinely supportive and collaborative team environment
- Purpose-built facilities and advanced equipment
- Exposure to a large and diverse reproduction caseload
- Ongoing learning and professional development opportunities
- Excellent workplace culture with low staff turnover
- Competitive salary package commensurate with experience

WestVETS also has a busy equine hospital and ambulatory service servicing South East Queensland. Our Marburg reproduction centre works closely with our equine hospital team to provide comprehensive care for breeding and performance horses alike.

www.westvets.com.au

Applications and enquiries are welcome and will be treated confidentially.

Applicants must hold, or be eligible for, veterinary registration in Queensland. Foreign applicants must check with the Veterinary Surgeons Board of Queensland.

Please submit a **cover letter and CV** outlining your experience in equine reproduction and artificial breeding technologies in detail.

Applicants should also include **three professional references** with their application.

Please email your application to margaux@westvets.com.au; cc tori@westvets.com.au
